

Anthracology World Wide

Diversity of contexts and environments: Applications, limits and advances

L'Antracologie dans le Monde

Diversité des contextes et des milieux : Applications, limites et avancées

Vendredi 16 décembre – Campus Saint Jean d'Angély – Salle Plate

8h30 Accueil – salle Plate

9h00 Discours d'ouverture – Elysandre PUECH, Auréade HENRY, Lydie DUSSOL

9h15 DOTTE-SAROUT Émilie – The University of Western Australia
Développer l'anthracologie en Océanie: bilan et perspectives des 10 dernières années

10h00 Session poster et café – hall MSHS

11h00 HÖHN Alexa – Goethe-Universität
In mounds and pits, from floodplains and dunes – charcoal assemblages from savanna sites in West Africa

11h45 BAMFORD Marion – University of the Witwatersrand
Anthracology studies in South Africa: applications and status quo

12h30 Pause déjeuner – hall MSHS

14h00 SCHEEL-YBERT Rita – Museu Nacional, Universidade Federal do Rio de Janeiro
Anthracology in Brazil: challenges and achievements in highly biodiverse environments

14h45 BODIN Stephanie C.¹, HENSEL Elena², VOGELSANG Ralf², CASAS-GALLEGO Manuel³,
MARKWIRTH Jennifer¹, HAHN Karen³ – ¹ Senckenberg Forschungsinstitut, ² University
of Cologne, ³ Goethe University Frankfurt
*Human-induced Afromontane opening around the Sodicho rock shelter in the SW
highlands of Ethiopia after the African Humid Period*

15h30 Pause - café

15h50 ALIX Claire¹, HENRY Auréade² – Université Paris 1 Panthéon-Sorbonne, UMR 8096 Archéologie des Amériques (ArchAm), 1 CEPAM, Université Côte d'Azur, Nice France

Challenges and potential of anthracology in low diversity arctic and subarctic contexts

16h35 Clôture de la journée

16h40 Réunion des anthracologues

17h30 Temps libre

19h30 Dîner – Hôtel de la Tour

Liste des posters

Ecoanatomical approach of *Arbutus unedo* wood for paleoenvironmental insights in Corsica

CAMAGNY Thomas¹

¹ CEPAM, Université Côte d'Azur, Nice France

Deep learning for archaeological wood charcoal classification: first results and perspectives

CORNELI Marco^{1,2}, COLI Vanna Lisa¹, LE ROUX Quentin¹, PUECH Elysandre¹, THERY Isabelle¹

¹ CEPAM, CNRS, Université Côte d'Azur, Nice France, ³ INRIA, Maasai, CNRS, LJAD UMR 7351, Nice, France

Testing the Hirox digital microscope for imagery and morphometry in anthracology

HENRY Auréade¹, LIARD Aurélie¹, GOEBEL Peter²

¹ CEPAM, CNRS, Université Côte d'Azur, Nice France, ² University of Idaho

Green wood as fuel? Experimental combustions for understanding paleo-pyrotechnological practices at Bonneville Estates Rockshelter (Nevada)

LIARD Aurélie¹, GOEBEL Peter², HENRY Auréade¹

¹ CEPAM, Université Côte d'Azur, Nice France, ² University of Idaho

First applications of anthracology in Vanuatu (South West Pacific)

PONCHELET Julien¹

¹ Université Paris 1 Panthéon-Sorbonne (Ecole doctorale 112) - UMR 8068 TEMPS

Database of anatomical features for some South African woods and charcoals: ongoing process and perspectives for an identification key

PUECH Elysandre^{1,2}, THERY Isabelle¹, BAMFORD Marion²

¹ CEPAM, Université Côte d'Azur, Nice France, ² University of the Witwatersrand

Palaeo-Environment, ecology, and human adaptations to high ecozones of Africa, Bale Mountains: A view from archaeological charcoal

TAREKEGN Tefera¹

¹ CEPAM, Université Côte d'Azur, Nice France
